

Hosted Solutions Option

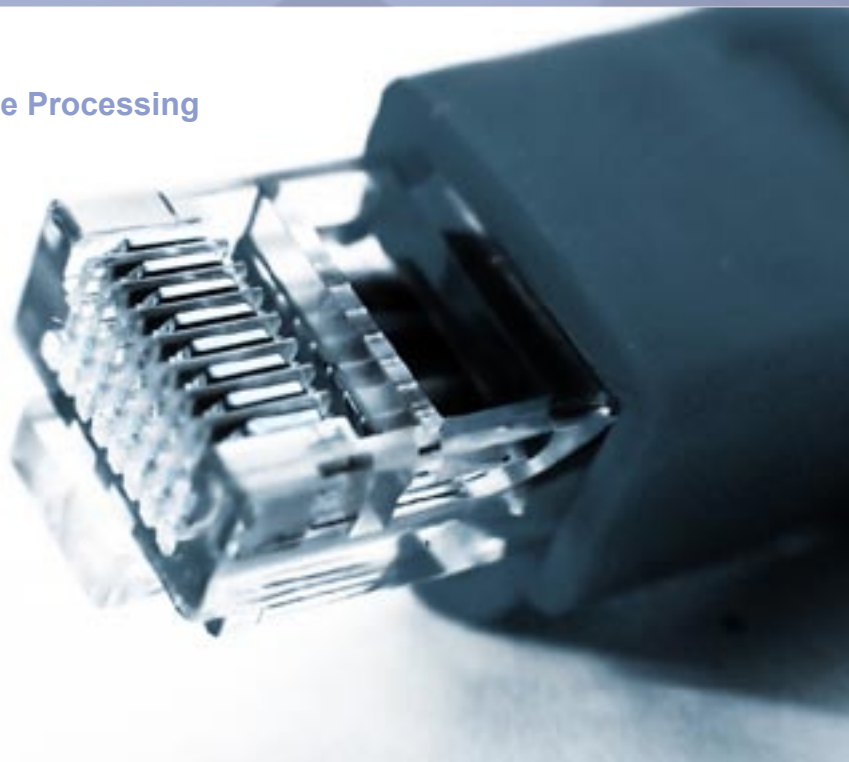

Xyntax Hosted Solutions provide Secure Online Processing Internet based accounting software

Xyntax Hosted Solutions enables you to get the most out of your Xyntax applications, without a large financial commitment.

A Xyntax Hosted Solution eliminates much of the 'up front' investment associated with purchasing of a financial system. Software licenses, server and network hardware, and additional support costs can all lead to increased cash flow pressure.

With Xyntax, you receive one streamlined monthly bill combining your hosting services, product upgrades, and unlimited application support, and with Xyntax as your single point of accountability, you can rest assured that support is only a call away.

Starting at under \$200.00* monthly, Xyntax Hosted Solutions offer comprehensive financial management solutions for First Nations and First Nation organizations.

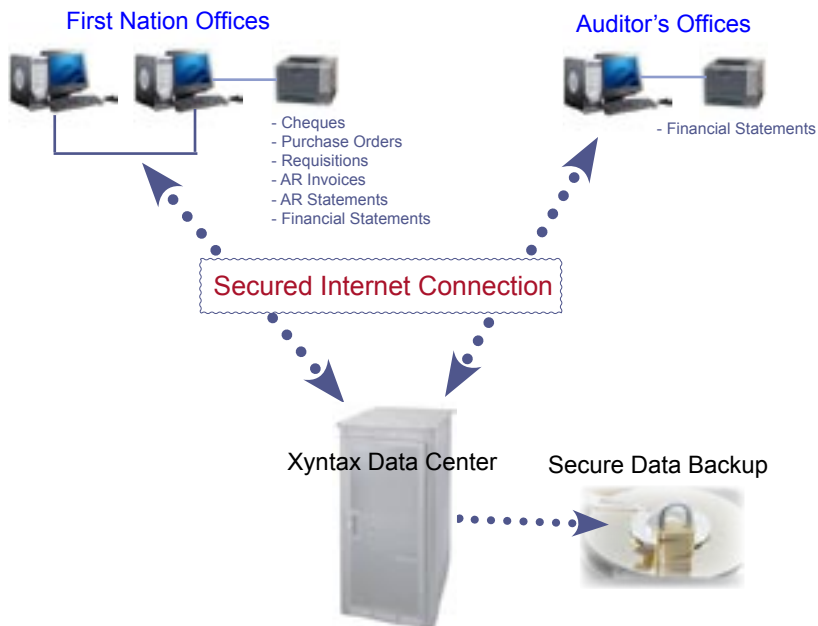

What are the Key Benefits to a Hosted Solution?

- Subject Matter Support (accounting)
- Application Upgrades included
- Secure and Reliable
- Access your data from anywhere
- Scalable - add users as needed
- Work from different locations
- Lower 'up front' investment
- No Maintenance - data backups included
- Rapid implementation
- Low monthly cost
