Thank You For Evaluating PowerTerm Pro			
5	*	View read me file	
Pro	5	Place an Icon on the Desktop	
Series	8	Exit & Launch On-line Registration(Requires a Web-Browser & Internet Access)	3
PowerTerm		Exit & Launch PowerTerm Pro	
		< Back Finish	-

Click on the "Place an Icon on the Desktop" option.

Click on the OK button.

Deselect the "Show Tips at Startup" option if you do not want the tips to display each time at Startup and click on the **OK** button.

(Note: After installation, the "Tip of the Day" can still be viewed by clicking on Help -> Tip of the Day.)

Now you need to set up PowerTerm parameters prior to connecting to the Xyntax server.

Parameters can be obtained from your System Administrator, Help Desk, and/or from Xyntax. Please go to the next section of this document to view setup parameters.

Xyntax PowerTerm Pro for Unix Setup Parameters

Select the Setup section under the Terminal title.

Terminal Setup				? ×

After you enter in your parameters and click on the **<u>Connect</u>** button.

The Host name (usually the IP address of the Xyntax server) can be obtained from you System Administrator or from Xyntax.

If you are connecting thru a phone line, you will need a modem (at both ends) and the necessary telephone numbers to connect.

The "PowerTerm Pro for Unix" software can be downloaded from <u>http://www.xyntax.com/downloads/Ptprose.exe</u>.

Congratulations, you have successfully installed the "PowerTerm Pro for Unix" software.
